Dear Gregg

I just received your magnificent book, wow!!! I can't wait to read about all of this awesome period which you have captured so beautifully in word picture and sound.

I have been richly blessed to have been a part of this experience you describe so well. I admire your talent and the time and energy that it took to create this awesome picture and document of a time and experience that is worth remembering and passing on.

Thank you so much for doing this and including "the fetty jumpus" in your masterpiece. Thank you for sending me this book. I will always treasure it in my memories of being part of something so cool -

God Bless -

P.S. "DON'T FORGET
"HONKERS & SHOUTERS"
