

Dear Greg "Hey Baby" HAYNES

You know I love "My Music" so I had to "Think"...
"You're Gonna Hate Yourself in the Morning" if you
don't "Get Down Tonight" to Macon, GA., but "It's Alright".
"Looks like We Made It" and this "Friday Night" 10-06-06
is "Unforgettable"!

Joseph Johnson and crew did it to everyone's "Satisfaction" at the
"Georgia" Music Hall of Fame. Seeing my "Soul Man" Russell
(relapse) Martin is always a "Good Thing". Hack was a hoot-
John was McReal, "DA DO RONRON RON", Keith, Barry, "Jimmy Mack",
Johnny, Richard, "Mr. Ed", Greg, Camie, NORA & Company etc, etc,
etc, "OH WHAT A NIGHT"!

"After All" the ribbon cutting, autograph signing and camaraderie
at the G.M.H.F., our Acapella JAM at the party in the
Crown Plaza was "Close Enough to Perfect" for me.

"Maybe I'm Amazed" at all of that talent in one room.

"I'll Be Doggone" NO ONE had a recorder?!? When we did a
"Breakdown" on "Ain't Too Proud to Beg" not only were the
vocals covered but so were the brass and brass lines - Acapella.

Singing familiar falsetto parts was a natural, and
the guy next to me (and I) were nailing it in harmony
note for note when I found out "My Guy" was no other
than million selling recording artist ("You Are My Lady")
Freddie Jackson, who had come from a gig in Macon that
night and joined us in our "Sing a Song" fest. We could
have sung "All Night Long"! "Chances Are" will
"Do It Again", but to my friends and fellow musicians
who missed this one... looks like you "Missed Again" uh huh.

When I found "A Quiet Place" to begin reading
"The Hey Baby Days of Black Music", it took "Just One Look"
and "I Know" the "Book of Love" that started as
"The Impossible Dream" turned into "This Magic Moment"
for everyone involved and Greg, I just want to say
Thank you, "I Thank You"!

"May I" say you are one "Lucky Man" - "You Got It"...
the "Last Dance".

"Keep on Pushing", "Don't Tell You're Satisfied" whatever it is
"Call Me", "I'll be There" for the "Happy Anniversary"

"Always and Forever",
